**Webtrica Solution & Services - June 2019 - Nov 2019**  
React Native Developer

**JUST DIGITAL (PVT) LTD - May 2019**  
Intern (Web Developer)

## PROJECTS

### Chat App

#### Project description:

This Application is built on **React Native Framework + Socket.io** technology. The App has a **Login & Registration** form through which the user can start using the App, the logins are **secured** by **JWT (Json Web Token)**. There are **Chat Rooms** available for the users to join, which are created by the admin. The messages are backed up on a **mongoDB** database. Each room has its own chat maintained.

### Survey App

#### Project description:

This Application is built on **React Native Framework**, The app has different types of users - **Surveyor, Distributor** and **Sales** to login as and collect and share data of **Fast Moving Consumer Goods (FMCG)** and **PHARMA products** for different companies. It helps in keeping track of all of the data using **Offline Storage**, creating **Network Requests** and using **Google Maps** and **location services** for helping in Surveying in all possible ways. The app also contains **QR code Scanning feature** to get the data/information by scanning the code assigned to the customer.

### Mortgage Amortization Calculator

#### Project description:

This App is made on **ReactJS**, which calculates the **Mortgage Amortization** of loans and shows payment schedule with interest and savings made. The App is embedded in a **WordPress plugin** and the calculator is displayed via **short code**.

### **Institute of Bankers Pakistan App**

#### **Project description:**

This App is built for the convenience of IBP students to interact with the ongoing **Notices, Events, & Updates** happening on Campus. The App provides Details about **Training Sessions, Assessments, and Examination Past Papers & Publications**. The App also provides quick notices like new **Events, Fee remainders & Class Timing** via **Push Notification**.

## **EDUCATION**

---

### **Hamdard University (2014 - 2019)**

Bachelors of Science, Computer Science.
